

CSC E-LEARNING COURSE

This course can only be accessed on-line and is available in both English and French.

This course is self-paced and is approximately 4 hours in length.

E-Learning Centre courses are easy to use. Just contact the HHCA to get started.

Cost of course: \$150.00

INTRODUCTION TO CONSTRUCTION ESTIMATING

This training program will provide the knowledge and skills to visualize the scope and magnitude of a construction project and produce reliable estimates. This is accomplished by reviewing drawings through various phases of a project with the aim of determining the quantity and type of materials required for the project.

This course is intended for people working in estimating or any individual who wants to become an estimator in any part of the country, in any sector (residential, industrial, commercial, institutional, pipeline, civil).

A final mark of 75% is required in order to receive two (2) credits towards Gold Seal Certification.

SUCCESSFUL COMPLETION OF THIS COURSE WILL ENABLE THE STUDENT TO:

- Have a good understanding of estimating practices;
- Know site-specific conditions and regulatory requirements;
- Know how to handle the purchasing and logistics associated with materials on the job;
- Know how to manage materials on site;
- Organize cost data in a clear and logical manner;
- Have the ability to keep historical information related to costs, (including those associated with labour, material, overhead, equipment, availability of required items);
- Know how and when to update historical information related to costs;
- Assemble bids and meet bid closure deadlines;
- Provide on-site solutions to work-related problems in relation to equipment and material placement.
