

Job Posting#

DeFaveri Group Contracting Inc. is looking to fill the position of **Site Superintendent**, who, under the direction of the Project Manager, will primarily be responsible to review construction plans for compliance with all applicable codes, regulations, and ordinances, such as plumbing, mechanical, electrical, structural, zoning, and planned development. This position will participate in site and workplace inspections. This role will also oversee staff to ensure work is being performed according to established standards. The Site Superintendent must possess the following: #

- Highly developed understanding of industry regulations, standards, and best practices
- Demonstrated time management skills
- Strong knowledge of health and safety & construction regulations
- Current working at heights certification
- Standard First Aid certified
- 5 years supervisory experience. Supervisor Awareness and Basics of Supervision certificate preferred.
- Ability to create realistic schedules to support the timely completion of construction projects.

Job Duties#

- Review construction plans for compliance with all applicable codes, regulations, and ordinances, such as plumbing, mechanical, electrical, structural, zoning, and planned development
- Participate in site and workplace inspections
- Monitor job progress and costs, and provide regular progress reports to management
- Monitor and coordinate activities with the client, contractors, other consultants, and the approving authority
- Maintain inspection records and complete inspection reports
- Ensure all required permits are obtained
- Coordinate activities by scheduling work assignments, setting priorities, and delegating work accordingly
- Ensure all persons on the construction site are using the required personal protective equipment properly and at all times
- Ensure all employees are performing duties in compliance with company policies and standards for cost control, waste reduction, quality, safety, and complete and on-time delivery

- Manage job site administration duties, such as reviewing/submitting employee timesheets, and completing/maintaining daily logs
- Complete building inspections periodically throughout the construction phases to ensure client specifications are being met
- Ensure appropriate quantities of the correct materials are onsite prior to commencing daily work
- Oversee construction sites to ensure compliance with design, project specifications, regulations, and safety codes
- Ensure that applicable project management practices are followed throughout project lifecycles
- Manage and monitor project resources
