COMPANY DESCRIPTION

SOIL-MAT ENGINEERS & CONSULTANTS LTD. is a professional consulting engineering office serving private developers, industry, municipal, provincial and federal governments, contractors, and private home owners. The range of expertise offered by Soil-Mat Engineers includes geotechnical and environmental engineering, construction quality control and materials testing.

The company maintains a geotechnical and CCIL certified concrete laboratory in Hamilton and provides services to projects in Hamilton, Halton, Niagara, the GTA and elsewhere in Ontario.

Our growing engineering business is looking for a Construction Quality Control Field Technician who can help us create a more productive work environment while ensuring that our clients get the support & testing they need. The ideal candidate for this position is an organized, detail-oriented individual who is able to manage multiple projects at once in a fast-paced environment. If you are a deadline-driven professional with a strong work ethic and a background in the construction industry, we want to hear from you!
